

Commission Calculation

180 customers buying 3 x 100ml bottle each = 180 x R57.00 = R1 026

3 x 100ml bottle would typically last one customer for 5 months. That means each customer would re-order from you every 5 months. Here's how your commission would build month to month -

Month 1
You talk to 90 people and 66.66% buy meaning you gain 60 new customers per month. Each one buys 3 x 100ml bottles that last them for 5 months. 60 customers earn you 60 x R57.00 in commission each. Total end of month 1 = R 3 420
Month 2
You talk to 90 people and 66.66% buy meaning you gain 60 new customers per month. Each one buys 3 x 100ml bottles that last them for 5 months. 60 customers earn you 60 x R57.00 in commission each. Total end of month 2 = R 3 420
